WP2025: CIRCULAR ECONOMY IN THE GREEN TRANSITION

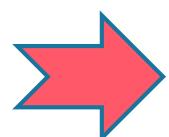

The Strategic plan positions the **circular economy** as central to the **green transition**, supporting systemic changes across sectors.

- ✓ **Strategic Priority:** Promotes the shift from linear to circular models in key sectors (construction, industry, agriculture, food), aiming to reduce environmental impact and foster sustainable consumption and production;
- ✓ **Cluster 6:** Drives circularity through resource-efficient systems, sustainable bio-based value chains, and innovation in waste reduction and recycling;
- ✓ **Cluster 4:** Supports circular solutions in digital and industrial technologies to reduce reliance on raw materials;
- ✓ **New European Bauhaus:** As a cross-cluster initiative, explicitly targets the built environment with circular and regenerative practices;
- ✓ **Policy Coherence:** Ensures integration with EU priorities (e.g., Green Deal, Circular Economy Action Plan), promoting cross-sectoral R&I and behavioural change.
